

WATER BOTTLE CHALLENGE

DESIGN TIPS & KEY INFORMATION

Keep it in the box – draw or paint your design within the boundaries of the white square on the right

Be creative – the design can be anything, but we're promoting our sport so try and make it clearly netball and appealing to netballers

Make it big, colourful and bold – the printing process means really small items simply won't come out on the bottle, so the bolder the better

Don't fill the whole background with colour – we have the choice of lots of different base colours for the bottles, but we need your design to be on a white background. We will then work with our bottle producers to make sure it stands out on the best colour bottle.

When you have finished – take a picture of your design or scan it, but please **keep the original** (we'll need it if you win). Scan the QR code or go to **bottlechallenge.co.uk** and ask an adult to complete the form for you and send your design. The closing date is 11.59pm on Friday 15 March 2024.

Thank you for taking part!

Send your design &
